Professional Summary

Information Technology engineering student graduating in 2027 with a CGPA of 8.9/10. Knowledge of C++, OOP, DBMS, SQL, and fundamental programming concepts. Full Stack Developer Intern with hands-on experience building web applications using React.js, Node.js, Express.js, and MongoDB. Developed projects integrating AI APIs, REST APIs, and database operations to address practical problems. Interested in developing innovative software solutions through analytical thinking, debugging, and clean, maintainable code.

Education

MVPS's Karmaveer Baburao Ganpatrao Thakhare College of Engineering, Nashik *2023 – 2027*
B.E. in Information Technology **CGPA: 8.9/10**

Class XII – Moolji Jaitha College, Jalgaon *2021 – 2023*
Percentage: 63.83%

Class X – Sheth Lalji Narayanji Sarvajanik Vidyalaya, Jalgaon *2020 – 2021*
Percentage: 92.60%

Technical Skills

Programming Languages: C++, C, JavaScript , Python (Basics)
Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, Reusable Components
Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, API Integration
Databases: MongoDB, MySQL, CRUD Operations, SQL Queries, Database Design, Data Validation
Tools and Practices: Git, GitHub, VS Code, Postman, Debugging, API Testing, Software Testing Fundamentals, Maintainable Code

Professional Experience

Full Stack Developer Intern *Jan 2026 – Feb 2026*
MainCrafts Technologies Pvt. Ltd. | Remote

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated REST APIs, connecting frontend components with backend services and database operations.
- Debugged application workflows and implemented reusable components to improve code readability and maintainability.

Projects

MockMentor AI – AI-Powered Interview Preparation Platform *MongoDB, Express.js, React.js, Node.js*

- Developed a full-stack interview preparation platform that generates personalized interview questions and AI-powered feedback to support interview practice.
- Integrated OpenAI GPT-4o-mini for AI-generated responses and Razorpay to support payment-related workflows.
- Built REST API integrations between frontend and backend, connecting application logic with MongoDB for data management.

AI-Powered Code Reviewer *MERN Stack, Google Gemini API*

- Built an AI-assisted code review application that analyzes submitted code and generates feedback on readability, code quality, performance, and maintainability.
- Implemented code submission, syntax highlighting, and Markdown-rendered feedback in a responsive React interface.
- Integrated the Google Gemini API through a Node.js and Express.js backend to process review requests and return AI-generated suggestions.

SmartURL – URL Shortener *Next.js, React.js, Tailwind CSS*

- Developed a responsive URL-shortening application using reusable React components and dynamic routing.
- Structured frontend components and responsive layouts to support consistent navigation and a user-friendly experience across different screen sizes.

Certifications & Achievements

- Secured 22nd rank in the CodeSprint final round of The CodeClash on Unstop.
- Earned the LeetCode 50 Days Badge for consistent coding practice and problem-solving.
- Completed Full Stack Development through GFG SkillUp Nation.
- Completed EY AI Skills Passport (2026), McKinsey.org Forward (2025), and IBM Ethical Considerations for Generative AI (2025).
